Koch's Lymph in America. Dr. Jone S. Billings, who is in charge of the Army Medical Museum at Washington, will in a day or two receive a package containing about five hundred grains of the lymph prepared by Dr. Kocst, A portion of the quantity forwarded him will be sent to the Johns Hopkins Hospital, at Baltimore, there to be examined and experimented with. Another portion will be

Berlin is "the worst place in the world" for consumptives to go to; that many are there who are hopelessly ill and yet pray to be cured; that many persons upon whom the lymph was imprudently or unadvisedly used have died; and that various charlatans and money-grabbers are doing all they can to bring the discovery into disrepute.

Really it seems that more harm than good would be done by giving publicity to the Berlin is "the worst place in the world"

Perverse Parnell.

Mr. PARNELL has lost all his judgment. He has gone to Ireland with his budget of woes and has succeeded in splitting his party into two factions. What he means is to rule or ruin. There will be nothing but disaster to his cause, the cause he formerly loved, until he is left without a follower. That time is coming, but it may not be very near at hand, and mean time the Irish are dividing and quarrelling among

Mr. PARNELL continues to promise that there will be an "explanation" of his association with Mrs. O'SHEA. Human in genuity will be ransacked in vain to find what he means. The truth is that he is merely deluding the public. If he could show that O'SHEA had not been ignorant of what was going on it would still be almost as disgraceful to him as to the hus-When the time for speaking came he remained silent-his pledges broken and the charge not repelled." The Irish will first have to quell the PAR-KELL mutiny before they can give battle to the Tories, whose ranks have been swollen somewhat of late by deserters from the Liberal ranks.

Lease of Oyster-Beds.

The legislative committee charged to re-port the best policy which the State can adopt for the government of the oyster properties seem inclined to favor the ng-lease system.

Leases running ten or fifteen years will. in their opinion, give to the holders that permanency which is desired wherever large expenditures must be made for improvements. The existing trouble is that planters hold their beds by a short and uncertain tenure, and therefore cannot afford to invest in them the sums of money needed to put them in first-class condition. The problem is whether Virginia shall

dispose of her right to the land under water by sale or lease. There are other questions, but this is the chief one.

The opinion prevailing in Virginia is that we must adopt a new policy or see the oyster disappear from our waters. The objective points of legislation should be to preserve as far as possible the natural beds, to part with the water-rights to land-owners and others upon fair terms, and thus make it to the interest of planters to cultivate the oyster upon methodical and scientific plans.

Next to the settlement of our debt the

oyster question is of the greatest importance to this State.

Russian Jews-

What Russia needs is a foreign war. At present the chief use of its army is to op-

press the Jews. The orders about to be promulgated against the Hebrew population are cruel and cowardly in the highest degree and

show that the Russians are afraid to enter into fair competition with Jewish merchants, artisons, and farmers. England has already uttered a protest. All civilized lands will follow suit and

Russia must take her position in barbarian ranks or out of it.

There is no middle ground.

The animus of the force bill was very by Mr. Farz. when the gentleman from Maine declared for a bayonet behind every ballot, in the discussion of the mea-sure referred to. It was also very properly asized by Major Danrat, who called ion of a republic may be an asso-of bayonets with ballots, the con-

The National Board of Trade in its ses sion at New Orleans at first disapproved the Torner bankruptey bill, but on Wednesday reconsidered this action and endorsed the measure. A bankruptcy law is demanded by the

Baltimore is the place for the investment of Baltimore capital, and not Virginia. North Carolina, and other points toward which it has been flowing for some time.—

By the same reasoning Richmond and the other Virginia cities should have all the trade of our farmers. A wall between Virginia and Maryland would injure you more than us.

The congressional reapportionment bill which is now proposed will not make it necessary for any State to lose any part of its representation, as it increases the House to 356 members. It is intended to give the Republicans a net gain of ten. Under this plan Virginia will keep her ten members.

The Virginia Medical Monthly for December has a valuable table of contents, in-cluding articles from Drs. W. A. HAMMOND, of Washington; A. M. Priers, of New York: HUGHT. NELSON, of Charlottesville; JOSEPH A. WHITE, WILLIAM B. GRAY, and WILLIAM W. PARKER, of Richmond.

There is no time limit, of course, and Dr. Koch may keep his discovery a secret for a year or so; but, sooner or later, I am sure he will make it public."

DRIVER AND FERRYMAN ESCAPE. A Boat Capsized by an Unmanageabl

(Special telegram to the Dispatch.)

DANTILLE, VA., December 11.—At Barks-dale station yesterday a wagon drawn by two mules and two horses was driven into a ferryboat to cross the river. The water was high and the current swift. The boat was successfully pulled across the river, but when it reached the opposite bank the borses became unmanaguable and the boat was partially capsized, throwing into the river the wagon and team, the driver, and the ferryman.

"Holding down a claim" on the frontier, it should be remarked, has either drawbacks besides that of disputed possession. Many an enterprising settler who with indomliable hardihood has cleared the waste, just as a scanty area is ready for tiliage is stricken by that foe of the frontiersman—malaria. What a boon to that man and his family is Hostetter's Stomach Bitters; what wise forethought has be shown if he has obtained an adequate supply. The fairest fields for agricultural and mining enterprise on this continent and abread are subject to this infliction. Protected by Hostetter's Stomach Bitters it may be defed. INTEREST IN NORFOLK.

A party of Norfolk gentlemen who returned yesterday from a business trip through Southwest Virginia and Tennessee report great interest in Norfolk on the part of the people of those sections in connection with enterprises that must bring this port and the rapidly-developing Tennessee border in closer commercial relations. Norfolk people are largely interested in that section of country, and some of them have made handsome fortunes by the rise in values. Judge Tate, of Smyth country, who has invested nearly half a million dollars in real estate here, is again in the city and after Norfolk land. Roanoke businessmen are said to be pushing this way. Dr. E. A. Parsons, of that place, rented an office here yesterday at \$2,500 per annum to establish a branch of his Roanoke business.

THE ONLY FAITHFUL REPRINT OF THE

NEW YORK, 739-741 Broadway.—CHICAGO, 122-124 Wabash Avenue.

The Allen Reprint is the ONLY COMPLETE Reprint. The ONLY Reprint of the LATEST Ninth Edition. The ONLY UNMUTILATED Reprint of ANY Britannica. The Allen Company control the ONLY POPULAR-PRICED Edition of the ONLY "American Supplement" to the Britannica. FOR ONE MONTH, SPECIAL 12-VOL. EDITION, \$25!

THE TRUTH IS That all other so-called "Popular Editions" are MUTHATED, GARBLED and filled with Hundreds of Thousands of Errors. Sellers of the Calcago zinc-print are being sued by the BRITANNICA Proprietors, to prevent its sale, on the sole ground that the muthated product is a FRAUD and will damage and disgrace the title Encyclopedia Britannica. Failing to Prove these Statements we will FORFEIT a set of the Britannica.

FOR THE PROPLE.—While the BRITANNICA is the acknowledged standard, incomparably the best and most desirable Encyclopedia in existence, its high cost has heretofore placed it beyond the reach of most people; this barto its popular use has now been happily removed. The Allen Company have completed a perfect and exact reproduction of every colored man, plate, illustration, word, botter, of the expensive original, page for page, sub-indexes, marginal references, and both the English and American maps of all the States and Territories—a volume differing only in size and shape, but for more convenient for use and more durably bound than the expensive original. ly labor are represented, and whether it's

differing only in size and shape, but far more convenient for use and more durably bound than the expensive original.

ADDITIONAL MAPS.—We take no vandal liberties with the aimost sacred text of the BRITAN-NICA. The Maps are referred to and described in the text. If the maps be changed the text will no longer correspond with them. Hence the substitution of other maps in the Chicago "zinc-print" for the genuine maps of the BRITANNICA is a harm instead of a gain. We publish in the body of the BRITANNICA the maps which are in harmony with the text; and to meet the demand for the latest maps, we furnish in the SUPPLEMENT all the LATEST MAPS of States and Territories on the same paper as is used by their publisher in his arias. Thus the Alien Complete Reprint is the latest and greatest athas is the world—over 700 maps.

MANUFACTURE—Do not imagine it poorly made because the price is low. It is a handsome and durable volume in genuine bindings, double-hinged, with flexible back, on good quality book paper. It is saved on the "Smythe Sewer"—a machine recently perfected, and which sews this book proclisely as the famous "Oxford Teacher's Bible "is saved by hand. What the aswing-supchine is to the seamstress, what the twine-bluder is in the hore-tending. This grand "inborasive" has accomplished a two-fold good—it makes the most durable of bindings and at the same time has contributed greatly to reduce the cost of our edition. Witness these marvellous prices: immense quantities-makes prices in the greater part as nowhere else. Special to attend this great sale of Holiday Wares. It will give a saving to
